DHL Express - Excellence. Simply delivered.

## RELIABLE, SAVE AND FAST - KRUG WINERY RELIES ON EXCELLENT SERVICE QUALITY OF DHL EXPRESS

Gustav Krug, multiple award winning wine-grower, takes his pride and joy in delivering the best possible quality. Established 1746 in Gumpoldskirchen, Lower Austria, his winery offers a selection of powerful and complex reds and whites showing excellent maturity and storage potential. Beginning with tending the vine, to carefully harvesting, to pressing: Love for every detail is reflected in Gustav Krug's results. His internationally acclaimed wines stand for convincing taste, variety and passion.

## FROM THE WINERY TO THE CUSTOMER - RELIABLE, SAVE AND FAST

When it comes to transportation, one thing is absolutely clear for Gustav Krug: "I have to be able to rely 100% on my logistic partner. No matter where my customers are, my wine has to be delivered to them as fast and save as possible. And this is exactly what I appreciate when working with DHL Express." These priorities are the reason the winery has been working with DHL Express since 2014 for its national and international shipments.

As he wishes to absolutely focus on his core competence and passion the winemaker appreciates simple, straightforward logistic solutions from one source.

The online solution Intraship offers the desired independence and flexibility. Also the fragile nature of wine bottles calls for careful handling. Besides taking care of the proper treatment DHL Express uses optimized packaging materials to provide the right protection.

From creating the shipment, to on time pick up and to successful delivery fast service, safety and full overview are provided.
