DEAR CUSTOMER

Welcome to the DHL Express Service and Rate Guide 2023. Use this guide to learn how DHL Express products, services and tools can meet your logistics needs. DHL Express is the global market leader and a specialist in Time Definite International (TDI) shipping and courier delivery. We have been building and continuously improving for over 50 years through our team of 120,000 Certified International Specialists, helping more than 2.7 million customers globally.

The world has been buffeted by COVID-19 since 2020. We are proud that DPDHL, having enabled supply chains to move more than 2.5 billion vaccine doses so far, continues to contribute to the solution – and we are adapting every day to a still-evolving situation. Apart from the pandemic, the Ukraine crisis has also added material complexity to global logistics.

In response to these and other uncontrollable events, we continue to make significant **investments** to reinforce the resilience of our global network and secure critical supply chains – thereby continuing to prove our ability to offer reliable services to our customers globally. As an example, we invested in the expansion of our air network, with new airline collaborations with Cargojet and Singapore Airlines in addition to the acquisition of six Boeing 777F aircraft. Investments like these allow us to grow the DHL network and improve service quality for you – our customer.

Environmental responsibility continues to be a pillar of our long-term strategy through the DPDHL Sustainability Roadmap. In 2022 we signed ground-breaking agreements with bp and Neste to increase our use of Sustainable Aviation Fuel (SAF). We continue to accelerate the electrification of our last-mile fleet while investing in next-generation technology such as the all-electric Alice airplane, designing and constructing carbon neutral buildings and offering a portfolio of green products. Read more about this on page 4 and on the DPDHL Sustainability portal.

As part of Strategy 2025, we continue to earmark **Digitalization** – which we define as the conscious application of technology and enablement of people, as a means to improve – as a key enabler to reach the next level of excellence for our customers, for our employees and to drive operational efficiency. Read about some of the key developments on pages 15 and 16 and how they benefit you. Try some of them out at MyDHL+ if you haven't already!

We strive to successfully continue our partnership and remain committed to supporting your business anytime and anywhere. **Globalization** remains a powerful force and we invite you to read the first edition of the global DHL Trade Growth Atlas report, which we hope will become a go-to resource for understanding and navigating shifts in the global trade landscape – see page 7 for more. Thank you for trusting us to be your Logistics Partner of Choice! Tell us how we can support you further – please reach out to us on MyDHL+ or chat with us at gethelp.dhl.ca.

Sincerely,

Andrew Williams
Country Manager
DHL Express Canada

SUSTAINABILITY

Everything we do is to serve one purpose: **Connecting people, improving lives.** To fulfill this purpose, we need to make every dimension of our business sustainable. Our Sustainability Roadmap sets out our ambitions in three focus areas: Environment, Social and Governance (ESG). Find case studies and more details [here](#).

CLEAN OPERATIONS FOR CLIMATE PROTECTION

Leader in sustainable aviation

Sustainable Aviation Fuel (SAF), one of the key ways to reduce CO₂ in aviation, is already in use in our network. Two landmark collaborations signed by DHL Express with bp and Neste in 2022 are expected to save some **two million tons** of carbon dioxide emissions over the aviation fuel cycle – equivalent to the annual greenhouse gas emissions of approx. 400,000 passenger cars. In this way, we are making significant steps towards our commitment to use **30%** of SAF blending for all air transport by 2030.

Looking even further ahead, DHL is already pioneering next-generation innovations: [read more about Alice](#), the all-electric plane.

Green last-mile and line-haul

Electrify **60%** of last-mile delivery vehicles and increase share of sustainable fuels in line haul to more than **30%** by 2030.

Carbon neutral buildings

Design **100%** of all new buildings to be carbon neutral.

Green product portfolio

Offer green alternatives for **100%** of all core products and solutions.

IMPORT SERVICES

With the DHL Express Worldwide Import product, you can import shipments from over 220 countries and territories in the world. This is more than any other express delivery company can offer. What's more, customers in, say, the USA can order an import from China not just to the USA, but to any other destinations as well – we call this a Third Country shipment.

You are in full control, and able to manage all aspects of your imports in a very simple way. For your peace of mind, we provide a wide range of customs support and services.

If you need a faster delivery, our DHL Express 12:00 and DHL Express 9:00 services are available for import as well. You can order an import from another country, to be delivered to your country or any other destination, by using our dedicated electronic shipping solution for imports. You will have one account number, one invoice in a single currency and a fixed price that means you know exactly what you will pay.

GLOBAL TRADE AND YOU

A series of crises has put international trade at the center of the debate about economic growth and resilience. What are the current prospects for globalization and trade? Is there cause for concern? Is trade still an attractive source of growth? We deep dived into the data and conducted a thorough, fact-based analysis – and the results might just surprise you. In partnership with NYU Stern's Center for the Future of Management and its DHL Initiative on Globalization, the 'DHL Trade Growth Atlas' examines global trade growth trends and the trade patterns of 173 countries worldwide that combined make up more than 99% of world trade, GDP and population. Despite recent shocks and worsening macroeconomic conditions in much of the world, the study overall gives an upbeat assessment of the prospects for future trade growth.

We know the value of understanding the long-term global trade landscape for navigating short-term shifts in economic and trade growth. We help our customers make sense of what this means for their business to maximize the enormous potential of globalization and international trade.

Global trade surprisingly resilient through COVID-19 pandemic

Trade likely to grow faster in 2022 and 2023 than in previous decade

Shift in mix of products traded by advanced vs. emerging economies

POWERING UP THE POTENTIAL OF INTERNATIONAL E-COMMERCE

Discover and grow

Visit [dhl.com/discover](https://www.dhl.com/discover) to learn more about how DHL helps e-commerce companies ranging from start-ups to large enterprises, advising them on how to grow internationally. Our e-commerce focussed country guides, white papers such as 'The Ultimate B2B E-Commerce Guide', customer and trend research and market intelligence tools can enable you to better understand your customers and their shipping requirements to take the next step in your e-commerce journey.

International e-commerce

We help our customers go global with ease and speed to maximize the enormous potential of international e-commerce. DHL supports our customers' international growth with:

- Global reach
- Express delivery options
- Flexible delivery options for receivers (see 'On Demand Delivery' on page 15)
- Duty billing options and customs expertise
- Consultative advice for our customers on how to increase sales and grow cross-border

Fast, flexible and easy

Consumers expect everything 'on demand' – anytime, anywhere. DHL shipping options give customers a distinct competitive edge: over 90% of online consumers look at the available delivery options before going to the checkout, and their decision is influenced by delivery speed, flexibility and ease.

OPTIONAL SERVICES

DHL Express offers a wide range of optional services – from non-standard deliveries and billing options to climate neutral shipping.

Dedicated Pickup and Delivery

If your business needs a dedicated vehicle to collect or deliver unusual shipments, or a pickup or delivery outside normal business hours, we can arrange this.

Shipment Preparation

This is a convenient, fast and reliable service for seasonal or irregular shipments that require extra resources for their preparation. DHL manages the entire process of waybill preparation, content selection, labeling and packaging, then sends the shipments to the designated addresses.

Saturday Delivery

We offer Saturday delivery services to key cities in more than 70 countries.

Shipment Value Protection

We recommend this comprehensive protection for your valuable or personal shipments, giving you peace of mind in the unlikely event of physical damage or loss.

Extended Liability

If you are sending valuable documents such as passports, visa applications or regulatory certificates you can extend the DHL standard liability with this service. It provides coverage and compensation in the case of loss or damage.

Direct Signature

If you are sending sensitive documents or high value contents you can request DHL to obtain a direct signature from the consignee or a representative at the delivery address. DHL will ensure your shipment is not re-directed, or delivered at an alternative address.

Adult Signature

At Customer's request, DHL will obtain a delivery signature from an adult at the stipulated delivery address. DHL may request the recipient to show a personal document bearing photograph and date of birth.

Printed Invoice

This service is for customers who require a paper invoice where e-billing is the agreed standard. This service provides flexibility for a different invoicing method than what is already agreed.

Residential Address

Customers shipping to a home or private residence can activate specific delivery options by designating the delivery address as residential. For such shipments, DHL Express will proactively notify the receiver via email or SMS about the shipment's progress. Receivers can then select the most suitable delivery option via [On Demand Delivery](#).

GoGreen Climate Neutral

This service is for customers who need a reliable method to calculate their annual carbon emissions at a shipment level and subsequently offset these emissions through approved environmental programs. The whole process is verified annually by an independent body accredited by the Société Générale de Surveillance (SGS). DHL can also provide reports for either a high level estimate or a detailed carbon footprint.

Change of Billing

This applies when a customer requests a change of defined billing information on an already issued invoice, which will result in a reissuing of the invoice and, in case of an account change, crediting of the old account and debiting of the new.

Neutral Delivery

This service allows for the delivery of non-document shipments, without any value of the product being shared or exposed to the receiver, since the commercial invoice is removed prior to delivery.

DUTY BILLING SERVICES

Duty Tax Paid

At the customer's request, DHL clears the shipment at destination and arranges for the applicable import duties, taxes and regulatory charges to be invoiced to a specified DHL account at origin or third country, rather than the receiver of the shipment being billed at destination. The duty tax payer will be invoiced an extra charge based on a flat rate or a percentage of the fiscal charges that were paid.

Customs Clearance Service Charge

A service charge is applied and collected on all imports of a non-document shipment for which DHL Express (Canada) prepares a Customs entry. Charges differ for casual importers without a DHL Brokerage account on file, and importers with a DHL Brokerage account on file.

SURCHARGES

[View charges](#)

In order to maintain a consistently high level of service, in specific circumstances DHL Express levies a surcharge for exceptional activities, ensuring that these surcharges are fair for all of our customers.

Fuel Surcharge

This variable surcharge is applied to the weight charge of each shipment and any transportation related surcharges. It is derived from publicly available fuel oil indices that are also shown on the DHL Express website at mydhl.express.dhl. The charge is calibrated every month to the oil price that was current two months prior to the billing month.

Remote Area

This surcharge applies when a shipment is collected from or delivered to a location that is distant or difficult to serve.

Overweight Piece

A fixed surcharge is applied to every piece, including a pallet that exceeds a scale or volumetric weight of 70kg (150lb).

Oversize Piece

This fixed surcharge applies to every piece, including a pallet, with a single dimension in excess of 120cm (48in).

Non-Stackable Pallet

This fixed surcharge is applied to every pallet within a shipment that cannot be stacked, either on request by the shipper, or because of its shape, content or packaging.

Dangerous Goods

DHL can carry acceptable quantities of dangerous goods or hazardous materials. Packages containing dangerous goods materials will be assessed and a service charge will be applied accordingly. Additional charges may also apply.

Consumer Goods ID8000

A surcharge is applied when shipments containing consumer goods such as perfumes, aftershaves, aerosols, nail varnish and prescription medicines as covered by the IATA ID8000 section and packed in a form intended for retail sale and shipped to private individuals. (Formerly known as Consumer Commodities.)

Address Correction

This fixed surcharge is applied to any shipment that has an incorrect delivery address at the time of pickup and the delivery cannot be fulfilled after making efforts at the destination to determine the correct address.

Data Entry

This fixed surcharge applies for each shipment consigned with non-electronic, paper based manual waybills. Electronic shipping documentation incurs no additional charges.

Security Charges

Additional surcharges may apply when shipping from or to a destination country where DHL is operating at elevated risk due to continuous state of war, civil unrest, or continuous threats from terrorism (**Elevated Risk**), or when shipping from or to a destination country that is subject to trade restrictions imposed by the UN Security Council (**Restricted Destination**).

Emergency Situation

A temporary surcharge, which allows us to cover operating cost increases due to an emergency situation out of DHL's control. Change in market dynamics and air capacity availability is reflected through regular price adjustments. For more information, please visit our DHL Express website at mydhl.express.dhl.

Peak Season

A temporary surcharge, which allows us to cover part of the operating cost increases resulting from necessary network adjustments during Peak Season. For more information, please visit our DHL Express website at mydhl.express.dhl.

Bulk Packaging and Plastic Flyer Stack

Charges apply for all DHL standard packaging items including plastic flyers provided in bulk or stacks.

DHL Express is the international specialist in shipping, with extensive knowledge and experience of dealing with customs topics worldwide. For your peace of mind, we provide a wide range of customs support for standard as well as non-routine customs-clearance processes. By making sure that clearance is a smooth and efficient process, we ensure your shipments arrive as quickly as possible, and leave you free to focus on your core business. With our online tool (tas.dhl.com) we provide essential customs information to help you prepare your shipments.

Broker Notification

At shipper or importer request, DHL will provide the necessary paperwork to the customer's designated broker to perform the import clearance and resume the delivery to the final destination once the clearance is completed.

Release to Broker

At shipper or importer request, the release of a DHL Express shipment to the customer's designated customs broker of choice. DHL will transfer the responsibility for a shipment and related customs documentation to the customer's nominated broker for clearance and last mile delivery.

Formal Clearance/Non-Routine Entry

Applied to DHL invoice when Customs investigate and require formal paper entry to be submitted. Applied in selected countries, when importing goods with an aggregated declaration value or weight exceeding the limits set by destination Customs Authorities, or due to other regulatory requirements are excluded from routine clearance on a consolidated manifest and thus require clearance under an individual entry form. Formerly known as RMD-Document Preparation.

Bonded Storage

The registration into bond, and subsequent holding of a shipment for more than 3 calendar days, following its arrival date in a DHL or non-DHL bonded facility. Applicable when the holding of a shipment is requested by the customer, a shipment is awaiting clearance documents or clearance by a third party broker assigned by the customer.

Export Declaration

Applies in countries where an export declaration is required for shipments containing controlled commodities or exceeding a certain value threshold or weight. Where automated export systems are available to the public, shippers may avoid the charge by submitting the export declaration online. In case of IMP billed shipments DHL will submit the export declaration in order to accelerate the export at origin and pass the charge to the payers account.

Multiline Entry

When commercial documents have more than 5 lines, additional charge for extra lines typed will be applied to DHL invoice.

Rebilling of Invoice

Applied when the Customer requests DHL to re-issue an invoice to an alternative address, different contact or company, change in terms of trade and/or for any other reasons not originally identified on the commercial documents.

Permits and Licenses

To accelerate import of selected controlled commodities, such as medical devices, pharmaceuticals, computer monitors, laser CD players, cosmetics, eyeglasses, food and food products, DHL is required to file specific information in order to obtain the required import permits or licenses.

Other Government Agency

The arrangement by DHL of any bio, health, phyto-sanitary, veterinary, quarantine, CITES or similar controls required by any authority and the preparation of any related paperwork, to facilitate the clearance of a shipment/piece.

Post Clearance Modification

If requested by Customs authorities or the Importer/Exporter, DHL may add or modify data declared to Customs authorities for clearance purposes. This includes data such as declared values, classification of the goods and importer details, based on documentary evidence gathered from or confirmed by the Importer or Exporter.

HOW TO SHIP WITH DHL EXPRESS

Preparing Your Shipment

Packaging Your Shipment

Paying for Your Shipment

PREPARING YOUR SHIPMENT: AS EASY AS 1-2-3

1 Shipment weight

- Please weigh and measure your shipment.
- If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in inches, then divide the total sum by 139 for each piece in the shipment.
- Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

2 Documentation required: waybill

- All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery.
- Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

3 Documentation required: invoice

- A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable.
- A commercial invoice is used when goods are part of a commercial transaction or intended for resale.
- A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

PREPARING YOUR SHIPMENT INVOICE

Your invoice will require the following details:

1. BANK DETAILS

These are the bank details that will be used for the transaction between the seller and buyer. These details are not required for non-commercial/proforma invoices.

2. DESCRIPTION

Generic or broad descriptions are no longer permitted and are likely to cause delays. Descriptions should include the items, how many there are, what they are made of, and what they will be used for. Describing items as ‘samples’, ‘parts’ or ‘electronics’ is not acceptable for customs classification, safety and security reasons. Instead of ‘electronics’, for example, use a description such as ‘television’.

3. COMMODITY CODE

This is the product identification code used by the exporting country to classify the goods to be exported. It assists clearance and avoids delays.

4. COUNTRY OF MANUFACTURE/ORIGIN

This relates to the place of manufacture, not the country of export. If items are manufactured in more than one country, please list the origins.

5. TOTAL DECLARED VALUE

This is the total value of the transaction for customs purposes based on the Incoterm selected. The total declared value should include freight and insurance charges if the seller is responsible for these two elements.

6. TYPE OF EXPORT

The options are: (1) Permanent; (2) Temporary; and (3) Repair & Return.

7. INCOTERM

Insert the Incoterm that best describes the terms of the transaction. For example, DAP (Delivered At Place).

8. REASON FOR EXPORT

This could be: For Sale; For Repair; After Repair; Gift; Sample; Personal Use Not For Resale; Replacement; Intercompany Transfer; or Personal Effects.

Preparing Your Shipment

Packaging Your Shipment

Paying for Your Shipment

PACKAGING YOUR SHIPMENT

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

Packaging guidelines

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment's airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment's journey. Please ensure the barcode is flat and not covered by tape, shrinkwrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes
- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg (150lb) should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary to place the individual pieces on a pallet unless they exceed 70kg (150lb). For example, a shipment comprising four 25kg (55lb) pieces does not have to be placed on a pallet

DHL packaging

We offer a range of high-quality DHL-branded packaging items, suitable for shipping items of all shapes and sizes.

The items available include:

- Flyer bags
- Cardboard document envelopes
- Boxes in a range of sizes
- Tubes
- Bottle boxes

For more information please refer to the Packing Guide available on mydhl.express.dhl.

Prohibited and Restricted Commodities

Prohibited Items

The following items will NOT be accepted for carriage by DHL. This list includes items which are prohibited for carriage by any law, regulation or statute of any federal, state or local government of any country from, to or through which the items may be carried. For international carriage there may be additional prohibited items specified by the country of destination. DHL may at its sole discretion refuse to carry other items not listed below.

Digitalization is one of the most important trends impacting logistics, and it is one of the key pillars of DPDHL's Strategy 2025. Through digitalization we bring benefits for our customers, our operations and our own people.

We invest continually in market-leading technologies to help our customers to manage and monitor shipments, create shipping labels, get quotes, schedule courier pickups, connect with us and more. Digitalizing our operations provides more transparency, allowing us to better anticipate and meet our customers' needs.

ON DEMAND DELIVERY

DHL's On Demand Delivery tool keeps receivers informed of shipment progress, allowing them to reschedule, reroute, release or conveniently collect from a DHL Service Point. It is an innovative, easy-to-use, mobile-friendly service, especially for residential deliveries.

ondemand.dhl.com

Designed to enhance the online shopper's experience, the service is available globally, meaning consistent service standards and a harmonized user experience.

ROBOTICS

Driven by rapid technological advancements and increasing supply chain complexity, robotics solutions are entering the logistics environment, boosting productivity and driving zero-defect processes.

Robots are adopting more roles at DHL Express, assisting workers with the most repetitive and labor-intensive tasks and freeing them up to do higher-order, customer-facing activities. Examples include the use of articulated robotic arms for sorting inbound packages to last-mile delivery routes. We have four such robots in use globally, with this number set to double soon.

Our robots help get couriers out on the road faster – which means your parcels get delivered faster.

DIGITAL TRUST

Logistics requires transferring data and content around the world and we embrace a responsibility to do this securely. Our standards led by our binding Corporate Rules and by our [Data Privacy Policy](#) apply throughout the DPDHL Group and are approved by the Supervisory Authorities. We maintain a comprehensive [Information Security](#) and [Data Protection](#) approach based on ISO/IEC 27001:2013 and GDPR, to ensure a high standard when managing customer information assets and personal data. We aim to provide a rapid response to any security incident via our 24x7 Cyber Defence Centre (CDC) with global coverage and our global DPO community.

DPDHL acts as controller in respect of any personal data it receives from customers and holds to effectively provide transportation services and in regard to the delivery of any shipments or documents that it processes to perform its contractual obligations. DPDHL will act as a data controller when an individual is executing their rights under privacy legislations.

CUSTOMER SHIPPING INTEGRATION

Using EDI and XML Services enables you to incorporate DHL's online shipping capabilities into your own website, warehouse or customer service application. This provides global shipment tracking while making it faster and easier to access information about transit times, rates and courier bookings.

SPECIFIC SOLUTIONS

DHL offers additional capabilities for businesses requiring more specialized solutions – for example, its Medical Express and Collect & Return services.

CALCULATE THE PRICE OF YOUR SHIPMENT

Determine which zone your destination is in (page 19) and whether yours is a document or non-document shipment.

Do you need your shipments to arrive by the end of business or earlier in the day (see page 5)?

Based on weight (page 11), zone and speed, confirm your base price (page 21 for exports and page 23 for imports).

Add any optional services (page 8) and check if any surcharges apply (page 9).

Base price + Optional services + Surcharges = Total price

All Rates stated here are in CAD. Rates above are valid only until December 31 of the year; the Rates are subject to a General Price Increase (GPI) effective January 1st of each year. DHL Express does not accept shipments exceeding 3,000kg (6,600lb), or containing pieces exceeding 1,000kg (2,200lb) or 300cm (118in) in length, or not meeting DHL standards for packing. Refer to the Packing Guide on mydhl.express.dhl. These network restrictions are subject to change with 30 days notice. DHL reserves the right to revise the Rates at any time upon prior written notice to the Customer if there is a substantial change in the Customer's service requirements, local currency's exchange rate to EUR/USD or in DHL's costs. Rates do not include any accessorial surcharge, including Fuel. For more information, please contact our Customer Service Hotline at 1-855-DHL-SHIP (1-855-345-7447).
