SENDING DANGEROUS GOODS ON YOUR DHL IMPORT ACCOUNT

Import accounts can be approved to ship all categories of Dangerous Goods with the exception of Full IATA Dangerous Goods by Air and Lithium Batteries Section I(B). You, the account holder, must issue a work instruction to the shipper detailing how to prepare the shipments to be compliant for transport.

Work instructions need to be reviewed by the Restricted Commodities Team as part of the audit and approval process. The network capabilities for imports are different than those for exports; the Restricted Commodities team will provide you with the most up to date capabilities list.

SUPPORT SERVICES GROUP

For Dangerous Goods consignments that cannot be carried on the DHL Network either due to the fact that we do not accept the commodity or due to the destination being closed to Dangerous Goods, the DHL Support Services Group may be able to offer an alternative transport solution provided by a third party.

The Support Services Group will arrange the collection with the third party and the freight costs for the movement are billed to a DHL Express account.
