Rated But Not Invoiced (RBNI) & Tariff Enquiry

Why the Rated But Not Invoiced (RBNI) tab is not visible on the Main Dashboard?

There are two reasons why you might not see the RBNI tab on the main Dashboard screen:

Option 1: There may not be any shipments to view. Only when there are available shipments will the RBNI tab be available for viewing.

Option 2: The RBNI functionality may not have been activated for your account. Should you want access to RBNI then send an email to your country support team to request for an activation.

Are the rates in the RBNI fixed and final?

No. While we aim to be as accurate as possible you should be aware that no charges seen in the RBNI functionality are final until invoiced.

Is the Tariff Enquiry results account specific?

Yes. By selecting an account number, you will receive tariff enquiry results specifically for that account number.

I don't know the dimensions of my shipment – can I still perform a search?

Yes. Shipment dimensions are not mandatory to carry out a tariff enquiry however including shipment dimensions does increase the accuracy of the results. Note: while the dimensions are not mandatory, the shipment weight is.

Payments

Every country has different payment methods/options.

Can I set-up AutoPay on my account?

AutoPay is available to set-up via the My Account tab once card details are saved in My Wallet.

Is paying an invoice online secure?

Yes. We use a combination of digital signatures and current standard encryption to protect all your credit card payment details. No one at DHL has access to your credit and/or debit card information.

Will receive a payment confirmation?

Yes. A confirmation will be sent to the email address on file.

Do I have to install specific software to be able to pay through the DHL MyBill system?

No. You just need access to the internet. Current versions of most major browsers are supported (Chrome, Firefox, Safari, IE etc.). If you are using Internet Explorer (IE) as your web browser, only IE 11 or higher should be used.
