DEAR CUSTOMER

Welcome to the DHL Express Service and Rate Guide for 2024. If you are reading this, it means you have a personal or business need to move something, from somewhere, to somewhere and you want it done quickly, securely and reliably. We are here to help you!

As the global market leader in Time Definite International (TDI) shipping and courier delivery, and the most international company in the world, this is what we do! We move over 1 million shipments every working day, from point A to point B in 220 countries and territories, as quickly, securely and reliably as possible and with as much transparency as possible. Over 2.5 million customers around the world put their trust in us, and our team of 120,000+ Certified International Specialists strive to exceed their expectations on every single shipment.

Global logistics appears to be finally seeing the end of COVID-driven disruptions but yet is not completely back to the 'normal' of the previous time period. Overall, the global macroeconomic situation has started to stabilize although uncertainty remains. Aviation networks remain volatile in many parts of the world and the crisis in Europe continues to add complexity to global logistics. In the face of these and other challenges, we have continued to invest in safeguarding the resilience of our global network, which enables us to provide secure and reliable supply chain solutions to support our customers.

Sustainability continues to grow in focus in all logistics conversations and I invite you to learn how our [GoGreen Plus](#) service, introduced in 2023, and our leveraging of Sustainable Aviation Fuel (SAF) can directly help make your products more environmentally friendly – a growing criterion in the purchase decision process of both individual consumers and businesses.

Digitalization retains its laser focus at DHL and we have brought to market a slew of tools to support our customers, in particular small businesses. For example, the new [My Global Trade Services tool](#) aims to reduce customs complexity and improve getting clearance 'first time right!'. The [DHL Express Commerce tool](#) can help small businesses fast-forward taking their online sales channels international. Interested? [Let's connect!](#)

In conclusion, please use this guide to learn how DHL Express products, services and tools can meet your logistics needs. **Thank you** for trusting us to be your Logistics Partner of Choice. Tell us how we can support your growth: reach out to us on [MyDHL+](#) or by calling Customer Service on 11 310919.

Sincerely,

O. Maralgoo

Everything we do is to serve one purpose: **Connecting people, improving lives.** To fulfill this purpose, we need to make every dimension of our business sustainable. Our Sustainability Roadmap sets out our ambitions in three focus areas: Environment, Social and Governance (ESG). Find case studies and more details [here](#).

OUR TARGETS FOR 2030

<29 million

Reduction in our greenhouse gas emissions to under 29 million tonnes

€7 billion

Investment of €7 billion in green technologies

SBTi

Commitment to SBTi (Science-Based Targets initiatives)

30%

SAF blending of 30% for all air transport

CLEAN OPERATIONS FOR CLIMATE PROTECTION

Leader in sustainable aviation

Our GoGreen Plus service allows you to embrace green logistics by insetting, or reducing, the CO₂ within your own supply chain. We do this by using Sustainable Aviation Fuel (SAF). And that is not only good for the environment, it can benefit you by helping you to report your CO₂ emissions. Here is how to get on board:

- With the GoGreen Plus **basic contract**, 30% CO₂ reduction (insetting) is applied to all your express shipments via air.
- In **MyDHL+**, you can opt for GoGreen Plus and choose which shipments to invest in with SAF.
- Alternatively, choose a **customized offer** for even more CO₂ reduction.

Our GoGreen Plus service is made possible following DHL's landmark collaborations with bp and Neste to supply DHL Express with SAF, which is expected to save some **two million tons** of carbon dioxide emissions over the aviation fuel cycle.

Green last-mile and line-haul

Electrify **60%** of last-mile delivery vehicles and increase share of sustainable fuels in line haul to more than **30%** by 2030.

Carbon neutral buildings

Design **100%** of all new buildings to be carbon neutral.

Green product portfolio

Our GoGreen Plus service allows customers shipping TDI to inset their CO₂ air emissions by up to **100%**.

Through collaboration, we can make our supply chains more sustainable. Read more about the Era of Sustainable Logistics.

IMPORT SERVICES

With the DHL Express Worldwide Import product, you can import shipments from over 220 countries and territories in the world. This is more than any other express delivery company can offer. What's more, customers in, say, the USA can order an import from China not just to the USA, but to any other destinations as well – we call this a Third Country shipment.

There is no need for local brokers or forwarders to get involved in any part of the process. You are in full control, and able to manage all aspects of your imports in a very simple way.

You can order an import from another country, to be delivered to your country or any other destination, by using our dedicated electronic shipping solution for imports. You will have one account number, one invoice in a single currency and a fixed price that means you know exactly what you will pay.

DHL EXPRESS ENVELOPE

Our DHL Express Envelope service provides door-to-door international delivery of lightweight document shipments by the end of the next possible business day. It also offers you carbon neutral shipping at no extra charge.

GLOBAL TRADE AND YOU

A series of crises has put international trade at the center of the debate about economic growth and resilience. What are the current prospects for globalization and trade? Is there cause for concern? Is trade still an attractive source of growth? We deep dived into the data and conducted a thorough, fact-based analysis – and the results might just surprise you. In partnership with NYU Stern's Center for the Future of Management and its DHL Initiative on Globalization, the 'DHL Trade Growth Atlas' examines global trade growth trends and the trade patterns of 173 countries worldwide that combined make up more than 99% of world trade, GDP and population. Despite recent shocks and worsening macroeconomic conditions in much of the world, the study overall gives an upbeat assessment of the prospects for future trade growth.

We know the value of understanding the long-term global trade landscape for navigating short-term shifts in economic and trade growth. We help our customers make sense of what this means for their business to maximize the enormous potential of globalization and international trade.

POWERING UP THE POTENTIAL OF INTERNATIONAL E-COMMERCE

Discover and grow

Visit dhl.com/discover to learn more about how DHL helps e-commerce companies ranging from start-ups to large enterprises, advising them on how to grow internationally. Our e-commerce focussed country guides, white papers such as 'The Ultimate B2B E-Commerce Guide', customer and trend research and market intelligence tools can enable you to better understand your customers and their shipping requirements to take the next step in your e-commerce journey.

International e-commerce

We help our customers go global with ease and speed to maximize the enormous potential of international e-commerce. DHL supports our customers' international growth with:

- Global reach
- Express delivery options
- Flexible delivery options for receivers (see 'On Demand Delivery')
- Duty billing options and customs expertise
- Consultative advice for our customers on how to increase sales and grow cross-border

Fast, flexible and easy

Consumers expect everything 'on demand' – anytime, anywhere. DHL shipping options give customers a distinct competitive edge: over 90% of online consumers look at the available delivery options before going to the checkout, and their decision is influenced by delivery speed, flexibility and ease.

OPTIONAL SERVICES

[View charges](#)

DHL Express offers a wide range of optional services – from non-standard deliveries and billing options to climate neutral shipping.

GoGreen Plus

When selected, DHL will reduce (inset) CO2 emissions from air transport through the purchase of Sustainable Aviation Fuel (SAF). SAF can reduce lifecycle carbon emissions by up to 80% compared to traditional jet fuel. GoGreen Plus – Carbon Reduced service, supports Scope 3 emission reductions in alignment with the Science Based Target initiative. The process is audited annually by SGS (Société Générale de Surveillance) to ensure compliance with regulations and standards. Alternative reduction levels and CO2 emission reports are available on contractual basis only.

Dedicated Pickup

If your business needs a dedicated vehicle to collect unusual shipments, or a pickup outside normal business hours, we can arrange this for you.

Dedicated Delivery

On customer request, an immediate or non-routine, once-only delivery of a shipment within a normal working day or a holiday that involves a specific vehicle such as tail lift truck or more than one courier.

Saturday Delivery

We offer Saturday delivery services to key cities in more than 70 countries.

Extended Liability

If you are sending valuable documents such as passports, visa applications or regulatory certificates you can extend coverage and compensation beyond the DHL standard liability described in our [Terms and Conditions](#). In the event of full or partial loss to a document shipment, a fixed compensation will be paid regardless of the replacement cost of the document.

Shipment Preparation

This is a convenient, fast and reliable service for seasonal or irregular shipments that require extra resources for their preparation. DHL manages the entire process of waybill preparation, content selection, labeling and packaging, then sends the shipments to the designated addresses.

Packaging Supplies

Charges apply for all DHL standard packaging items including plastic flyers provided in bulks or stacks.

Hold for Collection

On shipper request, a shipment is held at the default DHL delivery facility at destination for consignee collection, rather than attempt a delivery at the receiver’s address. The service is booked through Customer Service or supporting shipping tools. The destination will notify the receiver when and at which facility the shipment is ready to collect. A consignee cell phone number is mandatory.

DUTY BILLING SERVICES

Duty Tax Paid

DHL can arrange for the shipper or a third party to be billed for any duties and taxes payable at destination, rather than the receiver of the shipment being billed. Charges apply whenever duties, taxes or other regulatory fees occur, and shipper has requested that those are to be billed outside of the destination country.

Duty Tax Processing: Account Customers

DHL will accelerate the customs clearance process making prompt payment of duty and tax charges relating to a shipment, while the receiver defers payment until an agreed date.

Duty Tax Processing: Non-Account Customers

This default service covers any import of a non-document shipment for which DHL has used its own credit line with Customs to advance or guarantee the payment of duties, taxes or regulatory charges on behalf of importers and consumers with whom DHL has no contract.

Hold for Collection

On shipper request, a shipment is held at the default DHL delivery facility at destination for consignee collection, rather than attempt a delivery at the receiver’s address. The service is booked through Customer Service or supporting shipping tools. The destination will notify the receiver when and at which facility the shipment is ready to collect. A consignee cell phone number is mandatory.

Residential Address

Customers shipping to a home or private residence can activate specific delivery options by designating the delivery address as residential. For such shipments, DHL will proactively notify the receiver via email or SMS about the shipment’s progress. Receivers can then select the most suitable delivery option via [On Demand Delivery](#).

Direct Signature

If you are sending sensitive documents or high value contents you can request DHL to obtain a direct signature from the consignee or a representative at the delivery address. DHL will ensure your shipment is not re-directed, or delivered at an alternative address.

Adult Signature

Delivery of a shipment to an adult. DHL will obtain a delivery signature from an adult at the stipulated delivery address.

No Signature Required

On receiver request, DHL is authorized to leave the shipment in a designated place without proof of delivery signature.

Change of Billing

This applies when a customer requests a change of defined billing information on an already issued invoice, which will result in a reissuing of the invoice and, in case of an account change, crediting of the old account and debiting of the new.

Neutral Delivery

This service allows for the delivery of any shipment, without its value being shared or exposed to the receiver. DHL will ensure any paperwork exposing the value of the goods is removed from the shipment prior to delivery.

SURCHARGES

[View charges](#)

In order to maintain a consistently high level of service, in specific circumstances DHL Express levies a surcharge for exceptional activities, ensuring that these surcharges are fair for all of our customers.

Fuel Surcharge

The fuel surcharge for International Time Definite services will be based on the daily average spot prices for US Gulf Coast (USGC) kerosene-type jet fuel, as reported by the U.S. Department of Energy between 3rd week release of prior month to 3rd week release of actual month. For example, the daily average price for fuel from 18th April to 15th May is used to determine the applicable surcharge in June.

The fuel surcharge applies to transportation charges on all services and to the following surcharges (where applicable): Saturday Delivery, Saturday Pickup, Elevated Risk, Demand Surcharge, Emergency Situation, Remote Area Delivery, Remote Area Pickup, Dedicated Pickup, Dedicated Delivery, Residential Address, Overweight Piece, Oversize Piece and Non-Stackable Pallet.

DHL reserves the right to change the fuel surcharge index and table with or without notice. Both the amount and duration of the surcharge will be determined at DHL's sole discretion.

Remote Area

This surcharge applies when a shipment is collected from or delivered to a location that is distant or difficult to serve.

Overweight Piece

A fixed surcharge is applied to every piece, including a pallet that exceeds a scale or volumetric weight of 70kg.

Oversize Piece

This fixed surcharge applies to every piece, including a pallet, with a single dimension in excess of 120cm. Does not apply to pieces already subject to Overweight Piece surcharge.

Non-Stackable Pallet

This fixed surcharge is applied to every pallet within a shipment that cannot be stacked, either on request by the shipper, or because of its shape, content or packaging. This surcharge does not apply to pieces below 30kg.

Demand Surcharge

One or more Demand Surcharges will apply to shipments during a period of high demand. A period of high demand is to be determined by DHL at its own discretion but may include a time of high demand for shipping services or a period with high operational cost. Details regarding the application of Demand Surcharges are set forth at mydhl.express.dhl and will be subject to change upon prior notice. Demand Surcharges apply cumulatively if a shipment and/or individual pieces meet more than one of the specified criteria. Demand Surcharges apply in addition to the rates and any other applicable charges.

Emergency Situation

A temporary surcharge, which allows us to cover operating cost increases due to an emergency situation out of DHL's control. Change in market dynamics and air capacity availability is reflected through regular price adjustments. The charge will be applied pro rata based on the chargeable weight (invoiced weight) of a shipment.

Address Correction

A fixed surcharge is applied per shipment when the destination address provided by the Shipper is incomplete, outdated or incorrect and DHL is subsequently unable to deliver the shipment. DHL searches and determines the correct address to complete the delivery.

Data Entry

A surcharge applies if the shipping label is not correctly completed or has not been produced electronically according to DHL standards and therefore requires manual data entry by DHL.

Security Charges

Additional surcharges may apply when shipping to or importing from a destination country where DHL is operating at elevated risk due to continuous state of war, civil unrest, or continuous threats from terrorism (**Elevated Risk**), or when shipping to or importing from a destination country that is subject to trade restrictions imposed by the UN Security Council or by national legislation such as the European Union or the US Office of Foreign Assets Control (OFAC) (**Restricted Destination**).

CUSTOMS SERVICES

Navigating the customs landscape is made easier by DHL's extensive knowledge and experience of both standard and non-routine customs-clearance processes. Get answers to many of your questions with our new online tool, [My Global Trade Services](#) tool, which will help you expand across borders – and concentrate on your core business.

Non-Routine Entry

Applies when shipments are subject to non-routine clearance procedures, due to their value, weight and/or commodity as defined by destination Customs Authorities. May also apply in selected countries where DHL is legally obliged to outsource formal clearance entries to a licensed third party broker.

Clearance Processing

Applies in selected countries where additional cost is incurred for importing shipments in alignment with government agency requirements.

Permits and Licenses

To accelerate import of selected controlled commodities, such as medical devices, pharmaceuticals, computer monitors, laser CD players, cosmetics, eyeglasses, food and food products, DHL is required to file specific information in order to obtain the required import permits or licenses.

Bonded Storage

Storage charges apply when the shipment cannot be released by Customs due to inaccurate or missing paperwork. Charges take effect three calendar days after the freight arrival date or broker notification, whichever is later. The charge applies to the duty and taxes payer.

Multiline Entry

Charges apply when more than 5 lines are recorded on the customs clearance, for example with different commodities or different countries of manufacture.

Bonded Transit

Bonded Transit applies to both export and import shipments whenever DHL is required to open, manage or report any form of transfer under bond.

Export Declaration

Applies in countries where an export declaration is required for shipments containing controlled commodities or exceeding a certain value threshold or weight. Where automated export systems are available to the public, shippers may avoid the charge by submitting the export declaration online. In case of IMP billed shipments DHL will submit the export declaration in order to accelerate the export at origin and pass the charge to the payer's account.

Preparing Your Shipment

Packaging Your Shipment

Paying for Your Shipment

PREPARING YOUR SHIPMENT: AS EASY AS 1-2-3

1 Shipment weight

- Please weigh and measure your shipment.
- If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in centimeters, then divide the total sum by 5,000 for each piece in the shipment.
- Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

2 Documentation required: waybill

- All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery.
- Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

3 Documentation required: invoice

- A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable.
- A commercial invoice is used when goods are part of a commercial transaction or intended for resale.
- A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

Preparing Your Shipment

Packaging Your Shipment

Paying for Your Shipment

PACKAGING YOUR SHIPMENT

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

Packaging guidelines

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment’s airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment’s journey. Please ensure the barcode is flat and not covered by tape, shrinkwrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes
- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary to place the individual pieces on a pallet unless they exceed 70kg. For example, a shipment comprising four 25kg pieces does not have to be placed on a pallet

DHL packaging

We offer a range of high-quality DHL-branded packaging items, suitable for shipping items of all shapes and sizes. The items available include:

- Flyer bags
- Cardboard document envelopes
- Boxes in a range of sizes
- Tubes

For more information please refer to the Packing Guide available on mydhl.express.dhl.

Prohibited and Restricted Commodities

Prohibited Items

The following items will NOT be accepted for carriage by DHL. This list includes items which are prohibited for carriage by any law, regulation or statute of any federal, state or local government of any country from, to or through which the items may be carried. For international carriage there may be additional prohibited items specified by the country of destination. DHL may at its sole discretion refuse to carry other items not listed below.

- Bullion (of any precious metal)
- Cannabis
- Cash (legal tender – bank notes, currency notes and coins)
- Complete firearms, ammunition, explosives/explosive devices including inert explosives and test pieces, air guns, replica and imitation firearms
- Human remains or ashes in any form
- Hunting (animal) trophies, animal parts such as ivory and shark’s fin, animal remains or ashes, or animal by-products and derived products not intended for human consumption, prohibited for movement by the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) and/or local law
- Illegal goods, such as counterfeit goods and narcotics
- Live animals (including but not limited to mammals, reptiles, fish, invertebrates, amphibians, birds, insects, larvae and pupae)
- Loose lithium metal batteries under IATA PI968 section II

MY GLOBAL TRADE SERVICES

My Global Trade Services (MyGTS) is your trusted advisor for cross-border trade – taking the complexity out of customs. If you are wondering what the harmonized shipping (HS) codes are for your goods, what the estimated total cost of your shipment will be, what can help get your goods cleared, and what documentation may be required, find the answers to these questions and more on our online MyGTS portal.

And the benefits for you? You can support clearing customs more quickly and more accurately, help avoid delays and unexpected customs or tax costs, and pre-plan your shipment journeys so that you understand potential prohibitions and restrictions.

ROBOTICS

Driven by rapid technological advancements and increasing supply chain complexity, robotics solutions are entering the logistics environment, boosting productivity and driving zero-defect processes.

Robots are adopting more roles at DHL Express, assisting workers with the most repetitive and labor-intensive tasks and freeing them up to do higher-order, customer-facing activities. Examples include the use of articulated robotic arms for sorting inbound packages to last-mile delivery routes. We have four such robots in use globally, with this number set to double soon.

Our robots help get couriers out on the road faster – which means your parcels get delivered faster.

DIGITAL TRUST

Logistics requires transferring data and content around the world and we embrace a responsibility to do this securely. Our standards led by our Binding Corporate Rules and by our [Data Privacy Policy](#) apply throughout the DHL Group and are approved by the Supervisory Authorities. We maintain a comprehensive [Information Security and Data Protection](#) approach based on ISO/IEC 27001:2013 and GDPR, to ensure a high standard when managing customer information assets and personal data. We aim to provide a rapid response to any security incident via our 24x7 Cyber Defence Centre (CDC) with global coverage and our global DPO community.

DHL Group acts as controller in respect of any personal data it receives from customers and holds to effectively provide transportation services and in regard to the delivery of any shipments or documents that it processes to perform its contractual obligations. DHL Group will act as a data controller when an individual is executing their rights under privacy legislations.
