- Open Transactions** – shows all unpaid invoices
- Disputed Invoices** – shows all invoices that have an open dispute logged against them
- Due Now** – shows all invoices that are due today or earlier

Why are the totals on the DHL MyBill Dashboard not

equal to the totals of all the invoices shown?

Only invoices that are due per their current status will show in **MyBill Dashboard** totals.

In what formats can I receive my invoices?

Invoices can be downloaded in a variety of formats, including CSV file (for importing into a spreadsheet such as in Excel), PDF (ideal for printing or sending as an attachment) and XML.

Will all of my invoices have additional documentation?

Invoices that have additional documentation available will be in DHL MyBill. If you need assistance, contact DHL at **+968 24520100** or email billingquery.om@dhl.com

How can I download and print a copy of the original invoice?

For a PDF, let your mouse pointer hover over the invoice data on the right side of either the **MyBill Dashboard** or **Archive** screens. A *PDF Invoice* button will come into view. Click it, and a pop-up menu will appear at the bottom of screen. To print immediately, click *Open* and then use the print function from your Adobe Reader program.

For alternate formats, select Invoice from either the **MyBill Dashboard** or **Archive** screens by clicking on the checkbox to the left of the line item. A *Download* button will appear above the invoice list. Click this button and then choose your desired file format. Once selected, click the *Download* button on right side of screen. A pop-up menu will display at the bottom of the screen. To print immediately, click *Open*. This will create a temporary zip file from which you can open the individual documents and print.

Can I tell who has previously accessed my invoice or shipment in MyBill?

Yes. Click directly on the *Invoice* (not the checkbox to left of line item). You will be directed to the **Invoice** screen. Select **Invoice History**. Here you will be given detail options.

What happens to my invoices once they've been paid?

Once an invoice has been paid, it will no longer show on the **MyBill Dashboard**. It can be found in the **Archive** screen.

ACCOUNT RECEIVABLES

What is the role of the Account Receivable (AR) Manager?

This is a level of access that allows the designated user(s) to act as the administrator for all billing accounts linked to the same Accounts Receivable Group for a customer.

How do you decide who is the AR Manager?

This role is automatically assigned to the first user who registers for a billing account within the Accounts Receivable Group. If you are an existing customer with a previous registration, the user email address with the earliest registration date has been set as AR Manager.

Why does my Dashboard show additional accounts?

If your Dashboard shows additional billing accounts, your user email address has been assigned the AR Manager role for all accounts which are linked to a specific Accounts Receivable Group.

I have a credit that I can see in my Dashboard, but when I attempt to use it to pay my invoice, the system displays this message: "This document is not ready to be used for payment..." What should I do?

Please review the posting date of the credit. Credits are not available for customer use for 5 business days after posting, to prevent overlapping application with DHL internal processes.
