# **DEAR CUSTOMER**

Welcome to the DHL Express Service and Rate Guide for 2024. If you are reading this, it means you have a personal or business need to move something, from somewhere, to somewhere and you want it done quickly, securely and reliably. We are here to help you!

As the global market leader in Time Definite International (TDI) shipping and courier delivery, and the most international company in the world, this is what we do! We move over 1 million shipments every working day, from point A to point B in 220 countries and territories, as quickly, securely and reliably as possible and with as much transparency as possible. Over 2.5 million customers around the world put their trust in us, and our team of 120,000+ Certified International Specialists strive to exceed their expectations on every single shipment.

Global logistics appears to be finally seeing the end of COVIDdriven disruptions but yet is not completely back to the 'normal' of the previous time period. Overall, the global macroeconomic situation has started to stabilize although uncertainty remains. Aviation networks remain volatile in many parts of the world and the crisis in Europe continues to add complexity to global logistics. In the face of these and other challenges, we have continued to invest in safeguarding the resilience of our global network, which enables us to provide secure and reliable supply chain solutions to support our customers. As an example, in Vietnam we have invested more than €15 million in new carbonneutral facilities such as Hanoi Gateway, North Hanoi Service Center, and Danang Service Center, with a total utilization space of more than 7,200 sqm. Investments like these allow us to grow the DHL network and improve service quality for you - our customer, while creating a positive impact on our environment.

**Sustainability** continues to grow in focus in all logistics conversations and I invite you to learn how our <u>GoGreen Plus</u>

service, introduced in 2023, and our leveraging of Sustainable Aviation Fuel (SAF) can directly help make your products more environmentally friendly – a growing criterion in the purchase decision process of both individual consumers and businesses.

**Digitalization** retains its laser focus at DHL and we have brought to market a slew of tools to support our customers, in particular small businesses. For example, the new <u>My Global Trade Services</u> <u>tool</u> aims to reduce customs complexity and improve getting clearance 'first time right!'. The <u>DHL Express Commerce tool</u> can help small businesses fast-forward taking their online sales channels international. Small business owners, let us help support your growth by enabling you to Save More as you Ship More! You could benefit from our **Dynamic Discounting** commercial options. Interested? Let's connect!

In conclusion, please use this guide to learn how DHL Express products, services and tools can meet your logistics needs. **Thank you** for trusting us to be your Logistics Partner of Choice. Tell us how we can support your growth: reach out to us on <u>MyDHL+</u> or by calling Customer Service on 1800 1530.

Sincerely,

Bernardo Bautista Country Manager DHL Express Vietnam

# **GLOBAL TRADE AND YOU**

A series of crises has put international trade at the center of the debate about economic growth and resilience. What are the current prospects for globalization and trade? Is there cause for concern? Is trade still an attractive source of growth? We deep dived into the data and conducted a thorough, fact-based analysis – and the results might just surprise you. In partnership with NYU Stern's Center for the Future of Management and its DHL Initiative on Globalization, the '<u>DHL Trade Growth Atlas</u>' examines global trade growth trends and the trade patterns of 173 countries worldwide that combined make up more than 99% of world trade, GDP and population. Despite recent shocks and worsening macroeconomic conditions in much of the world, the study overall gives an upbeat assessment of the prospects for future trade growth.

We know the value of understanding the long-term global trade landscape for navigating shortterm shifts in economic and trade growth. We help our customers make sense of what this means for their business to maximize the enormous potential of globalization and international trade.

Import

Services

DHL Express offers a wide range of optional services – from non-standard deliveries and billing options to climate neutral shipping.

#### **GoGreen Plus**

Export

Services

**OPTIONAL SERVICES** 

When selected, DHL will reduce (inset) CO2 emissions from air transport through the purchase of Sustainable Aviation Fuel (SAF). SAF can reduce lifecycle carbon emissions by up to 80% compared to traditional jet fuel. GoGreen Plus – Carbon Reduced service, supports Scope 3 emission reductions in alignment with the Science Based Target initiative. The process is audited annually by SGS (Société Générale de Surveillance) to ensure compliance with regulations and standards. Alternative reduction levels and CO2 emission reports are available on contractual basis only.

#### **Dedicated Pickup**

If your business needs a dedicated vehicle to collect unusual shipments, or a pickup outside normal business hours, we can arrange this for you.

#### **Dedicated Delivery**

On customer request, an immediate or non-routine, once-only delivery of a shipment within a normal working day or a holiday that involves a specific vehicle such as tail lift truck or more than one courier.

#### **Saturday Delivery**

We offer Saturday delivery services to key cities in more than 70 countries.

#### **Shipment Value Protection**

We recommend this comprehensive protection for your valuable or personal shipments, giving you peace of mind in the unlikely event of physical damage or loss. The service is subject to specific limitations and exclusions as described in our <u>Terms and</u> Conditions.

#### **Extended Liability**

Optional

Services

If you are sending valuable documents such as passports, visa applications or regulatory certificates you can extend coverage and compensation beyond the DHL standard liability described in our <u>Terms and Conditions</u>. In the event of full or partial loss to a document shipment, a fixed compensation will be paid regardless of the replacement cost of the document.

#### **Shipment Preparation**

This is a convenient, fast and reliable service for seasonal or irregular shipments that require extra resources for their preparation. DHL manages the entire process of waybill preparation, content selection, labeling and packaging, then sends the shipments to the designated addresses.

#### **Packaging Supplies**

Charges apply for all DHL standard packaging items including plastic flyers provided in bulks or stacks.

#### **Hold for Collection**

On shipper request, a shipment is held at the default DHL delivery facility at destination for consignee collection, rather than attempt a delivery at the receiver's address. The service is booked through Customer Service or supporting shipping tools. The destination will notify the receiver when and at which facility the shipment is ready to collect. A consignee cell phone number is mandatory.

#### **DUTY BILLING SERVICES**

#### **Duty Tax Paid**

DHL can arrange for the shipper or a third party to be billed for any duties and taxes payable at destination, rather than the receiver of the shipment being billed. Charges apply whenever duties, taxes or other regulatory fees occur, and shipper has requested that those are to be billed outside of the destination country.

#### **Duty Tax Processing:**

Account Customers DHL will accelerate the customs clearance process making prompt payment of duty and tax charges relating to a shipment, while the receiver defers payment until an agreed date.

#### **Duty Tax Processing:**

Non-Account Customers This default service covers any import of a non-document shipment for which DHL has used its own credit line with Customs to advance or guarantee the payment of duties, taxes or regulatory charges on behalf of importers and consumers with whom DHL has no contract.

Customers shipping to a home or private residence can activate specific delivery options by designating the delivery address as residential. For such shipments, DHL will proactively notify the receiver via email or SMS about the shipment's progress. Receivers can then select the most suitable delivery option via On Demand Delivery.

#### **Adult Signature**

Delivery of a shipment to an adult. DHL will obtain a delivery signature from an adult at the stipulated delivery address.

#### **Printed Invoice**

This service is for customers who require a paper invoice where e-billing is the agreed standard. This service provides flexibility for a different invoicing method than what is already agreed.

#### **Change of Billing**

This applies when a customer requests a change of defined billing information on an already issued invoice, which will result in a reissuing of the invoice and, in case of an account change, crediting of the old account and debiting of the new.

#### **Neutral Delivery**

This service allows for the delivery of any shipment, without its value being shared or exposed to the receiver. DHL will ensure any paperwork exposing the value of the goods is removed from the shipment prior to delivery.

## SURCHARGES

In order to maintain a consistently high level of service, in specific circumstances DHL Express levies a surcharge for exceptional activities, ensuring that these surcharges are fair for all of our customers.

#### Fuel Surcharge

The fuel surcharge for International Time Definite services will be based on the daily average spot prices for US Gulf Coast (USGC) kerosene-type jet fuel, as reported by the U.S. Department of Energy between 3rd week release of prior month to 3rd week release of actual month. For example, the daily average price for fuel from 18th April to 15th May is used to determine the applicable surcharge in June.

The fuel surcharge applies to transportation charges on all services and to the following surcharges (where applicable): Saturday Delivery, Saturday Pickup, Elevated Risk, Demand Surcharge, Emergency Situation, Remote Area Delivery, Remote Area Pickup, Dedicated Pickup, Dedicated Delivery, Residential Address, Overweight Piece, Oversize Piece and Non-Stackable Pallet.

DHL reserves the right to change the fuel surcharge index and table with or without notice. Both the amount and duration of the surcharge will be determined at DHL's sole discretion.

#### Remote Area

This surcharge applies when a shipment is collected from or delivered to a location that is distant or difficult to serve.

#### **Overweight Piece**

A fixed surcharge is applied to every piece, including a pallet that exceeds a scale or volumetric weight of 70kg.

#### **Oversize Piece**

This fixed surcharge applies to every piece, including a pallet, with a single dimension in excess of 120cm. Does not apply to pieces already subject to Overweight Piece surcharge.

#### Non-Stackable Pallet

This fixed surcharge is applied to every pallet within a shipment that cannot be stacked, either on request by the shipper, or because of its shape, content or packaging. This surcharge does not apply to pieces below 30kg.

**Connecting Your World** 

**Demand Surcharge** 

One or more Demand Surcharges will apply to shipments during a period of high demand. A period of high demand is to be determined by DHL at its own discretion but may include a time of high demand for shipping services or a period with high operational cost. Details regarding the application of Demand Surcharges are set forth at <u>mydhl.express.dhl</u> and will be subject to change upon prior notice. Demand Surcharges apply cumulatively if a shipment and/or individual pieces meet more than one of the specified criteria. Demand Surcharges apply in addition to the rates and any other applicable charges.

#### **Emergency Situation**

A temporary surcharge, which allows us to cover operating cost increases due to an emergency situation out of DHL's control. Change in market dynamics and air capacity availability is reflected through regular price adjustments. The charge will be applied pro rata based on the chargeable weight (invoiced weight) of a shipment.

#### **Excepted Quantities**

This fixed surcharge is applied when the handling and transportation of shipments involves substances and commodities that are in Excepted Quantities in compliance with IATA Dangerous Goods Regulations. Contractual agreement required.

#### Dry Ice

  - If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in centimeters, then divide the total sum by 5,000 for each piece in the shipment.
  - Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

#### Documentation required: waybill

- All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery.
- Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

#### Documentation required: invoice

- A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable.
- A commercial invoice is used when goods are part of a commercial transaction or intended for resale.
- A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

## **PACKAGING YOUR SHIPMENT**

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

#### **Packaging guidelines**

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment's airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment's journey. Please ensure the barcode is flat and not covered by tape, shrinkwrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes
- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary to place the individual pieces on a pallet unless they exceed 70kg. For example, a shipment comprising four 25kg pieces does not have to be placed on a pallet
